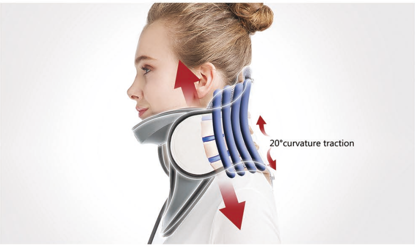
NECK DEVICE

CERVICAL NECK TRACTION DEVICE

C03 CERVICAL NECK TRACTION DEVICE

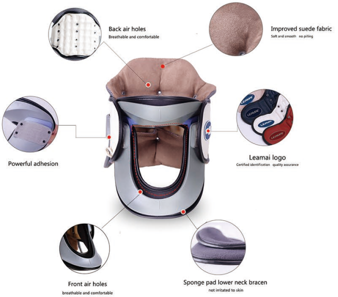
Relieve neck compression physiological curvature traction



20°curvature traction

THREE-DIMENSIONAL TRACTION

Details Display



Back air holes
Breathable and comfortable
Improved suede fabric
Soft and smooth no pilling
Powerful adhesion
Leamai logo
Certified identification quality assurance
Front air holes
breathable and comfortable
Sponge pad lower neck bracen
not irritated to skin

Specification

Charging method: pump

Color: white、red、blue

Material: Inside (cotton fabric), outside (PU leather), Air Sac(TPU)

Feature: 1)19 tridimensional air columns help correct your neck effectively.
2)Correct your neck effectively.
3)Breathable design.
4)Comfortable fabric.

C02 CERVICAL NECK TRACTION DEVICE

Specification

Charging method: pump

Color :white、red、blue、beige

Material: Outer layer(PU)
Inner layer(cotton fibric)
Air sac(TPU)

Size: free size

Feature: 1)20°curvature traction.
2)Adjust to people's neck curve.
3)Comfortable cotton fabric.
4)Breathable holes all around the product.

WAIST DEVICE

Y01 LUMBAR TRACTION DEVICE

Charging method: pump
Color: white、beige、red、blue
Material: Inside (cotton fabric), outside (PU leather)
Size: S/L/XL
Feature:

1)Fixate waist, correct lumbar vertebra abnormal curvature to release stress.

2)Fit neck curvature, curvature traction+strong stretch traction, double correction.

3)Push and support, directional traction, recover lumbar vertebra curvature and intervertebral space.

WHITE BEIGE RED BLUE

INSTRUCTION FOR PUMP

- Do not block the small hole on the bottom of the pump.
- Light pump with aluminum alloy material.

Y02 LUMBAR TRACTION DEVICE

Charging method: pump
Color: white、beige、red、blue
Material: Inside (cotton fabric),outside (PU leather)
Size: S/L/XL
Feature:

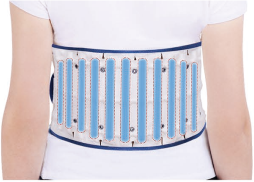
1)Upgraded version based on Y01, plus 2cm width, more powerful traction.

2) “H” bidirectional air columns, more powerful support, lift the upper part of body strongly, relief the stress on lumbar vertebra.

WHITE BEIGE RED BLUE

18 AIR COLUMNS

“H” air columns traction, relief pressure on lumbar



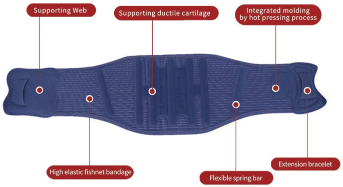
H01 LUMBAR SUPPORT BELT

Professional design, one step to solve waist action problem

Heat pressing technology
Fit the lumbar
Breathable and comfortable

Support system consist of 5pcs soft plates and 2pcs spring plates
Fit the body, more comfortable to wear daily

Focus on every single detail



Supporting Web
Supporting ductile cartilage
Integrated molding by hot pressing process
High elastic fishnet bandage
Flexible spring bar
Extension bracelet

Double pressure belt

The back height
24CM
The front height15cm

Specification

Model：H01
Color: Grey-Blue
Size: S、M、L、XL

Adopt German hot expressing technology ,without a single needle or a piece of thread, this belt can reduce the pressure on the belt to utmost extent based on the muscle distribution.

H03 MEDICAL FIXING BELT

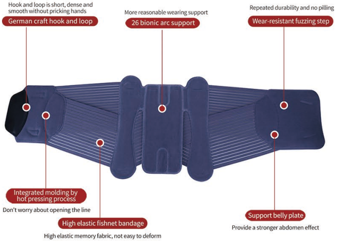
Three kinds of supports are selected as needed

Cartilage plate
Daily protection

ABS plate
Initial symptoms

Steel plate
Mid-late support

Focus on every single detail



Hook and loop is short, dense and smooth without pricking hands
German craft hook and loop
More reasonable wearing support
26 bionic arc support
Repeated durability and no pilling
Wear-resistant fuzzing step
Integrated molding by hot pressing process
Don't worry about opening the line
High elastic fishnet bandage
High elastic memory fabric, not easy to deform
Support belly plate
Provide a stronger abdomen effect

Double pressure belt

The Back height
27CM

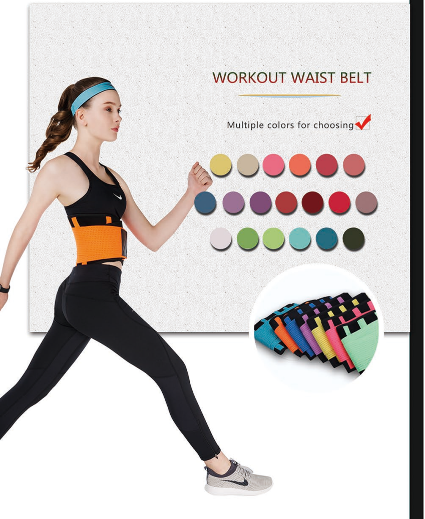
Specification

Model：H03

Color: Grey-Blue

Size： S 、 M、 L 、 XL

German hot-pressing technology is adopted, and three sets of support systems are available, which can be matched according to the waist condition. The support strips are deformed according to the shape of the human body and the distribution of muscles, and cling to the back of the waist, thus maximizing the dispersion of the stress on the waist muscles.



WORKOUT WAIST BELT

Multiple colors for choosing ✓

- With fixation pressure band, double pressure on waist, effect will be better.
- Close-fitting soft plates support, more comfortable.

D02 Workout waist belt

Color: Multiple colors for choosing

Size: S、 M、 L、 XL、 XXL

Material: Diving neoprene material,
inside ABS steel tube.

Feature: 1)High elastic material.
2)Comfortable and breathable.
3)Ergonomic design, close to back curvature.

D03 Workout waist belt

Color: Multiple colors for choosing

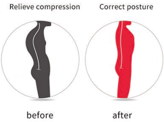
Size: S、 M、 L、 XL、 XXL

Material: Net cloth material,
inside ABS steel tube

Feature: 1)High elastic material,
2)Comfortable and breathable.
3)Ergonomic design, close to back curvature.

BACK DEVICE

H55 ALUMINUM PLATE TYPE BACK POSTURE CORRECTION BELT



Relieve compression
Correct posture
before
after

Four core advantages

Shoulder pad design
Two aluminium plates
Height adjustment
Keep your body good shape

Specification

Size : XS、S、M、L

Color : black

Material: The posture correction belt consist of Nylon elastic cloth, fish ribbon, elastic band, buckle, aluminium plate, bushing, artificial leather, ribbon, etc.

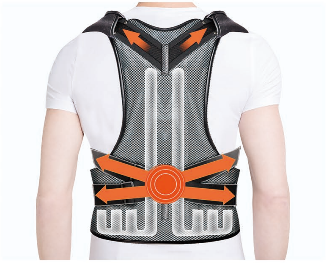
BACK DEVICE

H56 INFLATABLE TYPE BACK POSTURE CORRECTION BELT

For free pump

Double pressure band

8 air columns close to back curvature



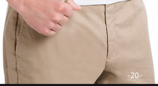
Specification

Size: XS、S、M、L

Color: black

Charging method: pump

Material: The posture correction belt consist of Nylon elastic cloth, fish ribbon, elastic band, buckle, mesh



cloth, TPU air sac, bushing, air pipe, air valve, pump, artificial leather, ribbon and rivet ring, etc.

Anti-bedsore Air Mattress

NO NEED TO TURN OVER BY YOURSELF

Circle Alternate | Sleep pump | Quick and easy

Using this product,
it can help caregiver complete manual interval turn
over and other tired nursing work.
It also can keep the patient body dry and promote blood circulation.

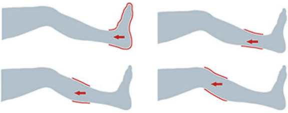
LM-KYY-A AIR COMPRESSION MASSAGE MACHINE

Assist in the prevention of deep vein thrombosis

The independent airbag is massaged step by step



Enjoy the massage

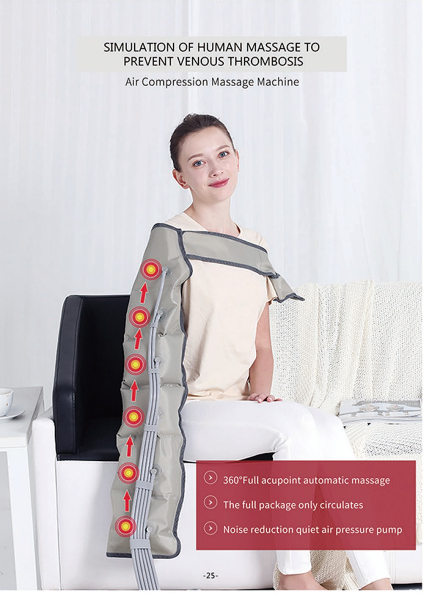
1. Relieve body fatigue
2. Relax your muscles
3. Promote blood circulation
4. Postpartum postoperative recovery
5. Full acupoint massage

One machine solves three parts

The leg massage
Massage the leg muscles through the air sac's contraction cycle

The arm massage
Promote blood circulation and bring you a comfortable massage experience

The waist massage
Massage the lumbar muscles through the circulation of the air sacs



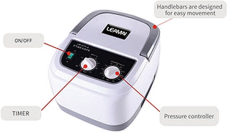
SIMULATION OF HUMAN MASSAGE TO PREVENT VENOUS THROMBOSIS

Air Compression Massage Machine

- 360°Full acupoint automatic massage
- The full package only circulates
- Noise reduction quiet air pressure pump

Easy to carry, convenient operation
Easy to use

Pressure Controller	Timer	Easy to use	Power-off protection
3-30kpa	0-30min	Small volume	Safe to use



Handlebars are designed for easy movement

Product parameters

Model : LM-KYY-A

Name : Air Compression Massage Machine

Type of fuse and The rated voltage： F0.5AL 250V Φ5mm×20mm

The rated voltage： AC220V / 50Hz

Rated frequency： 50Hz

Input frequency： ≤50VA

Application:By periodically aerating the pressure of the extremities, the venous reflux can be promoted and the deep venous thrombosis can be prevented.

Product structure: Main machine (air pump), air bag and connecting pipe.

Air bag includes: Upper-limb air bag, waist air bag, lower-limb air bag.

Inner layer of airbag :TPU inflatable fabric. Outer layer: TPU compliant fiber fabric.
